Go from the past to the present

by taking just a few steps through the entrance doors of the Palais, which was built in 1733. It was expanded in the nineteenth century and reconstructed in the 1960s after being damaged in the war, whereupon it housed the Opera Café, a popular meeting place. Behind the historic façade, bright, modern rooms now encourage encounters.

Choose this premium location and thrill your guests. The representative building with its vibrant history full of spectacular moments, coupled with the contemporary interior design, offers you a stage for unforgettable events.
